

****BPOQe, Doster & Hoffman Therapy, PLLC accepts care credit for select services****

What is Care Credit?

CareCredit is a health and wellness credit card that helps patients and clients get the care they want and need without delaying appointments or treatment due to cost. It can be used to pay for care for individuals, couples and families.

The Benefits of Healthcare Financing

CareCredit gives patients or clients a convenient way to pay overtime for treatment, deductibles, copays, and coinsurance, as well as other costs not covered by insurance.

How CareCredit Works

Clients can apply on their own device from any location, 24 hours a day. Once clients apply and are approved, they can use their CareCredit credit card immediately and take advantage of promotional financing options.

Why Does BPOQe Partner with Care Credit?

We believe accessibility to mental health and wellness treatment is necessary for those we serve. Financial fear should not be a barrier to obtaining mental wellness. Care Credit allows our clients to journey toward mental health and wellness in attempt to alleviate financial worry.
